

Navi

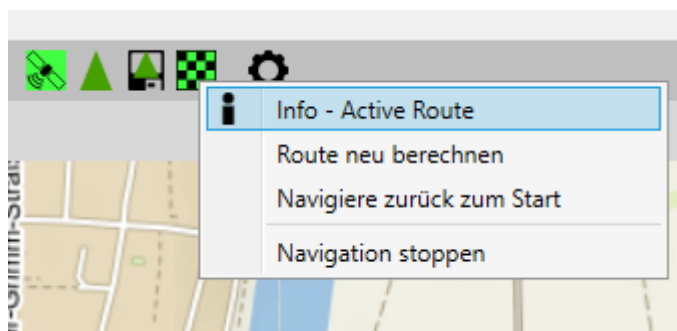

With a tablet or notebook in the vehicle, QVX guides you to your destination.

Select the destination with **Destination** 🚩. As destination you can use Waypoints, Pois, Route Tracks or the map cursor. Then select the desired parameters for this route, Routing Engine and Profile and click **START** :

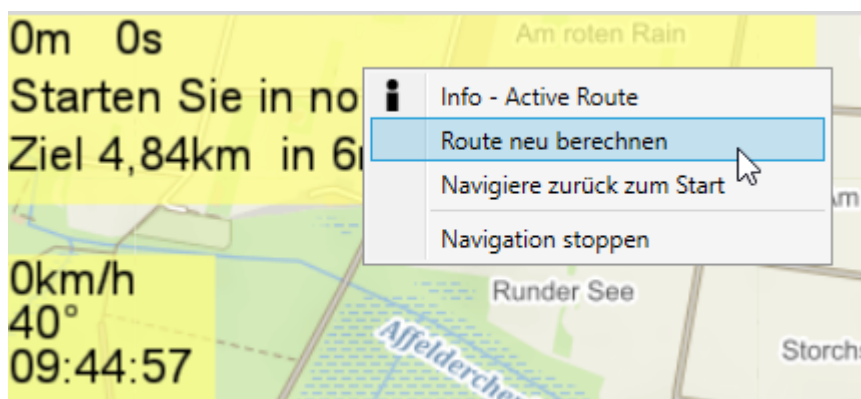

While driving you can use the toolbar or tap/click on the panels to get more options:

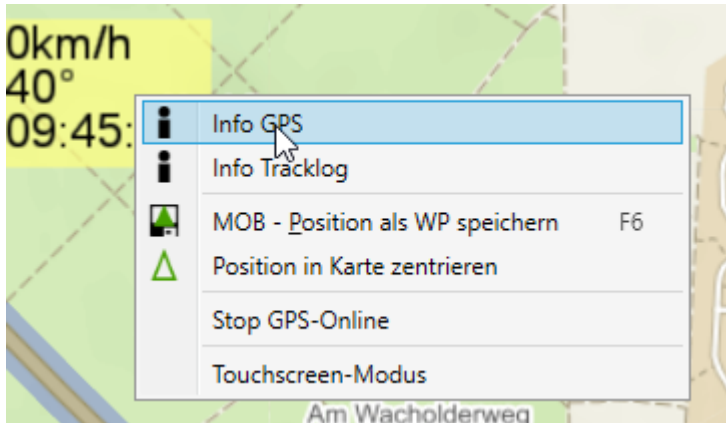

Toolbar:

The nav panel:

The GPS panel:

Further options can be found in Settings.
